About me

I've been working as software developer for over five years, with expertise in backend development, working with the Microsoft technology, such as C# and .NET, always striving for code that follow good software practices and principles. Also, I have some knowledge of front-end technology, such as ASP.NET MVC and Angular.

Skills

- C# | .NET | .NET Framework | ASP.NET MVC | ASP.NET WebAPI | ASP.NET Blazor | EF Core | SQL Server | MySQL | PostgreSQL
- SOLID | DDD | Clean Architecture | RabbitMQ
- Angular | TypeScript | Bootstrap | Git | Docker | Azure DevOps | Portuguese – Native | English - B1

Experience

Software Developer	<u>Ilha Service</u>	<i>On Site, Brazil</i>	06/2024 - Current
<ul style="list-style-type: none">• Outsourced to a public agency, responsible for sustaining the systems for internal and external use.			
Developer Analyst	<u>Stefanini</u>	<i>Remote, Brazil</i>	09/2022 – 04/2023
<ul style="list-style-type: none">• I participated in the development of a web api that would be consumed by a game that was developed for the metaverse. This web api would receive some game data for persistence in the database. The web api was developed in dotnet core, version 6. With EF Core and SQLite database. The publication was using containers.• Development and support of software for a fast-food client.			
Back-End Developer	<u>Conexa Aliare</u>	<i>Remote, Brazil</i>	07/2022 - 09/2022
<ul style="list-style-type: none">• Develop new features and support for an agricultural defensive recipe software.
